## 2010-2011 PROGRAMS

This directory is provided  
as a member service by  
the Pharmacy Society  
of Wisconsin

# Residency Organizational Structure

PGY1, or postgraduate year 1, will designate the first year of residency training. PGY2, or postgraduate year 2, will designate the second year of residency training. PGY1 residencies build upon the educational foundation provided through completion of an accredited Doctor of Pharmacy degree program. Completion of a PGY1 residency usually serves as the prerequisite for postgraduate year two (PGY2) residencies and fellowships.

PGY1 programs must train residents to be competent at:

1. Managing and improving the medication-use process
2. Providing evidence-based, patient-centered medication therapy management with interdisciplinary teams
3. Exercising leadership and practice management skills
4. Applying project management skills
5. Supplying medication and practice-related education and training
6. Using medical informatics

Residents in a PGY1 residency program are provided the opportunity to accelerate their growth beyond entry-level professional competence in patient-centered care and in pharmacy operational services, and to further the development of leadership skills that can be applied in any position and in any practice setting. PGY1 residents acquire substantial knowledge required for skillful problem solving, refine their problem-solving strategies, strengthen their professional values and attitudes, and advance the growth of their clinical judgment.

Residents in a PGY2 residency program are provided the opportunity to expand on knowledge gained from previous experience. PGY2 residents are able to take the knowledge gained from either pharmaceutical practice experience or from their PGY1 residency and focus it towards a particular area of interest.

Tele: (715) 847-2000 ext 53175  
Fax: (715) 847-0005  
E-mail: jillm@aspirus.org

### RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 2  
Application Deadline: February 1 or until filled  
Starting Date: Flexible  
Estimated Stipend: \$45,000  
Interview Required: Yes

### SPECIAL FEATURES

The Pharmacy Practice Residency Program at Aspirus-Wausau Hospital allows the resident to gain unique experience in a progressive department within the setting of a community hospital and health-system. The resident will gain experience with nutrition support, cardiology, intensive care, adult medicine, surgery and oncology. Through departmental outreach programs in home-care, hospice care, a family practice clinic, and the Aspirus Regional Cancer Center- Aspirus Wausau Hospital, the resident may also be involved in active ambulatory care practices. Additional opportunities exist in neonatology, infectious disease and many opportunities for professional public service, speaking, and education.

### FRINGE BENEFITS

Health insurance, dental insurance, three weeks paid time off, additional paid time off for educational meetings, reimbursement for educational travel expenses.

### SPECIAL REQUIREMENTS FOR ACCEPTANCE

Curriculum vitae, application form, eligibility for Wisconsin licensure.

### TRAINING SITE FEATURES

Aspirus is a system of health care facilities that include Wausau Hospital, Aspirus Clinics (a group of 100+ physicians), a long-term care facility, a large home care company, a hospice program and

others. Aspirus serves patients in 14 counties across northern and central Wisconsin. Wausau Hospital provides primary, secondary, and selected tertiary care services as a regional referral center. Specialty referral service emphasis exists in Cardiology and Cardiothoracic Surgery, Orthopedics, and Oncology. The hospital is licensed for 321 beds; 256 are operational. Average daily inpatient census is 160 with approximately 15,000 admissions per year. Outpatient visits exceed 50,000 and 24,000 emergency department visits occur annually.

Aspirus Wausau Hospital is an ANCC-certified Magnet facility and was identified as one of America's 50 Best Hospitals in 2009 by HealthGrades. Best known for its world-class cardiovascular program, Aspirus Wausau Hospital also provides leading edge cancer, trauma, women's health, and spine and neurological care. The area provides numerous opportunities for four-season outdoor recreation, and is especially noted for fishing, hunting, downhill skiing, cross-country skiing, snowmobiling, hiking, biking, kayaking/canoeing, and boating.

### RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 1  
Application Deadline: January 12  
Starting Date: July 1 (flexible)  
Estimated Stipend: \$45,600  
Interview Required: Yes

### SPECIAL FEATURES

PGY1 Pharmacy Practice-Green Bay residents will be based out of Aurora BayCare Medical Center in Green Bay, WI. The resident is part of Aurora Health Care's residency class and completes

core and elective rotations at Aurora BayCare Medical Center. The resident also has the opportunity to complete additional rotations of their choice at several Milwaukee-based hospitals and clinics. The resident gains experience in internal medicine, drug policy, administration, and ambulatory care. The resident chooses rotations in clinics including family practice, anticoagulation, transplant, and epilepsy/neurology. The residents completes elective rotations in cardiology/cardiac surgery, oncology, medical and surgical intensive care, neonatal intensive care, operating room, women's health, geriatrics, psychiatry, hospice, and infectious disease. Each resident's experiences are customized based on their interests and needs.

### FRINGE BENEFITS

Eligible for full-time employee benefits, including medical/dental insurance, 23 days paid time off, and travel support for educational meetings.

### SPECIAL REQUIREMENTS FOR ACCEPTANCE

Graduate of an accredited school of pharmacy and eligibility for licensure in Wisconsin. Applicants should submit letter of interest, curriculum vitae, three letters of recommendation, and transcripts.

### TRAINING SITE FEATURES

Aurora Health Care is the largest not-for-profit integrated health care system in Wisconsin, featuring 13 hospitals, numerous ambulatory, diagnostic and treatment centers, home health care and social service agencies, over 100 physician clinics, and 130 community pharmacies. Residents have the opportunity to complete rotations at a variety of different practice settings within Aurora.

## Aurora Health Care - Community Pharmacy

### Aurora Pharmacy St. Luke's Medical Center

2900 W. Oklahoma Ave.

### RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 1  
Application Deadline: January 12  
Starting Date: July 1 (flexible)  
Estimated Stipend: \$45,600  
Interview Required: Yes

### SPECIAL FEATURES

This residency provides an opportunity to participate in both community pharmacy and ambulatory clinic settings. Residents gain experience in providing medication therapy management services, as well as practice management and professional development. The experience is customized to meet the needs and interests of the residents.

### FRINGE BENEFITS

Health and dental insurance available, 23 days of paid time off, travel allowance for educational meetings.

### SPECIAL REQUIREMENTS FOR ACCEPTANCE

Graduate of an accredited school of pharmacy, curriculum vitae, letter of intent, and eligibility for Wisconsin licensure.

### TRAINING SITE FEATURES

Aurora Health Care is the largest integrated health care system in Wisconsin. It features 13 hospitals, home infusion services, long-term care, 130 community pharmacies and over 100 clinics. Residents will have the opportunity to work in a community pharmacy affiliated with Aurora St. Luke's Medical Center and will gain experience in utilizing technicians and advanced automation technology to assist in providing optimal medication therapy management services. Residents will concentrate their time in the pharmacy on working to improve existing services and implement new pharmacy-based programs. Patient care services offered include blood sugar screenings; blood pressure screenings; immunization services; smoking cessation services; transplant medication refill services; and osteoporosis screenings. Residents will also have opportunities to provide medication therapy management services in several clinic settings including family practice and anticoagulation. Coordination of patient care between the pharmacy and clinics will be emphasized.

Number of positions: 2  
Application Deadline: January 31  
Starting Date: June 30  
Estimated Stipend: \$43,000  
Interview required: Yes

### **SPECIAL FEATURES**

The PGY-1 pharmacy residency program at Children's Hospital of Wisconsin will provide the resident opportunity to develop clinical skills in a pediatric acute care hospital. The PGY-1 pharmacy residency will include rotations in acute care settings, including general pediatric medical and surgical areas. Clinical specialty rotations include neonatal intensive care unit, pediatric intensive care unit, pediatric oncology and bone marrow transplant unit, pharmacokinetic service, and pediatric parenteral nutrition service. Other elective rotations include: pediatric oncology outpatient clinic pharmacy, infectious disease, neurology, nephrology, solid organ transplant, operating room pharmacy, investigational drug studies and

poison center. In addition, the resident will have the opportunity to work with pharmacy clerkship students, present educational in-services for pharmacists, pharmacy technicians, nurses and medical residents, develop clinical programs and provide a limited amount of decentralized pharmacy staffing.

### **FRINGE BENEFITS**

The resident has health insurance, paid vacation, holidays, sick leave, and educational meeting allowance.

### **SPECIAL REQUIREMENTS FOR ACCEPTANCE**

Application form, curriculum vitae, eligibility for Wisconsin pharmacy licensure, on-site interview, letters of recommendation and pharmacy school transcripts are required.

### **TRAINING SITE FEATURES**

Children's Hospital of Wisconsin is a 236 bed acute care pediatric teaching hospital in Milwaukee, WI. Children's Hospital of Wisconsin is located on the Milwaukee Regional Medical Center Campus, which includes the Medical College of Wisconsin and Froedtert Memorial Lutheran Hospital. Children's is a Level 1 trauma center and a tertiary care pediatric hospital. The pharmacy department provides centralized distributive services 24 hours a day and decentralized pharmacists in general and specialty areas. The Children's Hospital of Wisconsin West Tower will be completed in early 2009 and patient beds will begin to open in March/April 2009, thus increasing the total beds to 294.

### **RESIDENCY PROGRAM**

Duration/Type: 12 mo/residency  
Number of Positions: 4  
Application Deadline: January 5  
Starting Date: July 1  
Estimated Stipend: \$39,000 with potential for additional funding from a non-VA source  
Interview Required: Yes

### **SPECIAL FEATURES**

Program is individualized to meet the needs of the resident and is well balanced with inpatient and outpatient experiences. Primary care clinic experience is provided throughout the year, with ability to follow patients longitudinally. Additional opportunities include infectious disease, nutrition support, internal medicine, intensive care, oncology, geriatrics, pharmacoconomics, home care, palliative care, drug information, ambulatory care, and practice management. The residency is designed to assist in the transition from student to clinical pharmacist. During this transition, residents will gain experience in overseeing pharmacy students and providing constructive feedback through didactic teaching and evaluation of students. In addition, residents will have the option to obtain a specialized teaching certificate. Residents will gain administrative insight through participation in relevant committees and projects. No weekend or evening staffing is required. Residents may choose to work weekends (at a pharmacist's salary) if desired.

### **FRINGE BENEFITS**

Health insurance, 10 vacation days, 10 holidays, 10 sick/family care days, tuition support.

### **SPECIAL REQUIREMENTS OF ACCEPTANCE**

Graduate of an accredited school of pharmacy, may be licensed or eligible for licensure in any state. U.S. citizenship required. Letter of intent, curriculum vitae, application form, transcripts, and three letters of recommendations

# PGY1

are required for application. See website for details about letter of recommendation – <http://www.milwaukee.va.gov/edu/residencies/pharmacy/>.

## TRAINING SITE FEATURES

The Clement J. Zablocki VA Medical Center delivers primary, secondary, and tertiary medical care in 140 acute operating beds and provides 586,000 visits annually through an extensive outpatient program. The extended care unit of 110 beds offers geriatric programming and the 350+ domiciliary beds are the locus of programs in Substance Abuse Rehabilitation, Psychiatric Rehabilitation and Post Traumatic Stress Disorder care. Milwaukee also has community based out-patient clinics in Appleton, Cleveland and Union Grove, Wisconsin. These programs serve a veteran population of over 250,000 in southeastern and east central Wisconsin. Special programs include interventional radiology, cardiac surgery, comprehensive cancer care including radiation therapy, telemedicine, a Spinal Cord Injury Unit, and, in long term care, a Geriatric Evaluation and Management Program and a palliative care program. The Medical Center is a teaching institution affiliated with the Medical College of Wisconsin and many schools of pharmacy (UW, Midwestern, St. Louis, Drake, UMKC, and Creighton). The pharmacy department provides centralized distributive services 24 hours a day. Decentralized clinical pharmacy services include internal medicine, oncology, infectious disease, nutrition support, pharmacokinetics, pharmacoconomics, and anticoagulation monitoring.

## RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 6  
Application Deadline: January 15  
Starting Date: July 1  
Estimated Stipend: \$45,760  
Interview Required: Yes

## SPECIAL FEATURES

This well-established residency program provides flexible, comprehensive training in a variety of areas. Required rotations include drug policy, pharmacy administration, and clinical practice (integrated throughout the year). Elective rotations include multiple intensive-care options (surgical/trauma, medical, neurosurgical, cardiovascular, bone marrow transplant), emergency medicine, infectious disease, hematology/oncology, transplant, nephrology, peri-operative services, investigational drug services, informatics, medication safety, and ambulatory care. Rotations and activities are tailored to meet the needs and interests of each resident. Opportunities exist to work with and serve as a preceptor for pharmacy clerkship students. Residents may also have the opportunity to participate in a teaching certificate program.

## FRINGE BENEFITS

Two and a half weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowance.

## SPECIAL REQUIREMENTS FOR ACCEPTANCE

Employment application, program application, curriculum vitae, pharmacy transcripts, two or three letters of recommendation (electronic templates will be provided), and examples of three projects. All application materials (except pharmacy transcripts) must be submitted via email to [pharmacyresidencyprogram@fmlh.edu](mailto:pharmacyresidencyprogram@fmlh.edu).

More information is available on the web at [www.froedtert.com/  
pharmacy\\_residency](http://www.froedtert.com/pharmacy_residency).

## TRAINING SITE FEATURES

Froedtert Hospital is a large academic medical center and Level 1 trauma center located on the Milwaukee Regional

Medical Center Campus, which encompasses the Medical College of Wisconsin and Children's Hospital of Wisconsin. Decentralized pharmacists provide comprehensive clinical services and patient education throughout the hospital. The Department of Pharmacy maintains an excellent rapport with nursing and medical staff and is actively involved in their educational programs.

## RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 3  
Application Deadline: January 15  
Starting Date: No later than July 1 (variable)

# PGY1

Estimated Stipend: \$40,200  
Interview Required: Yes

## SPECIAL FEATURES

The model for patient care provides unique opportunities for the pharmacy resident to gain experience applying pharmacotherapeutic knowledge and developing skills in a collaborative interdisciplinary environment. The resident will learn and adopt a practice philosophy that pharmacists are responsible for all areas of medication utilization to achieve optimal drug therapy outcomes. Rotation opportunities include critical care, cardiology, general medicine, pediatrics, infectious disease, nephrology, palliative care, psychiatry, oncology, and practice management. Program flexibility allows the resident to meet his or her specific needs and interests. A research project is required.

## FRINGE BENEFITS

Health insurance, dental plan, paid time off, travel allowance for educational meeting participation and professional development

## SPECIAL REQUIREMENTS FOR ACCEPTANCE

Eligibility for Wisconsin licensure, curriculum vitae, letter of intent, college transcripts, three letters of recommendation, and on-site interview.

## TRAINING SITE FEATURES

Gundersen Lutheran is a progressive tertiary referral teaching center with 19 regional clinics of multispecialty practice. The hospital and clinics serve as clinical training sites for medical, pharmacy, nursing, and other allied health profession students and residents, and serves as the western Wisconsin clinical campus for the University of Wisconsin. The pharmacy department provides comprehensive distributive service on a 24-hour basis, including parenteral admixture and support of automated dispensing units. Gundersen Lutheran adopted an integrated electronic medical record in late 2008, including provider order entry as a component. Distributive service is complemented

by clinical pharmacists and pharmacy technicians deployed to all inpatient units and select hospital-wide services.

## Luther Midelfort - Mayo Health System

1400 Bellinger St.

## RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 2  
Application Deadline: January 16, 2009  
Starting Date: July 1, 2009  
Estimated Stipend: \$45,760  
Interview Required: Yes

## SPECIAL FEATURES

The Luther Midelfort Pharmacy Residency Program combines the best features of both inpatient and outpatient pharmacy services to offer advanced practice opportunities for residents within a fully integrated health system. Residents will be trained in the areas of critical care (including intermediate care, infectious disease, nephrology, cardiology and nutrition support), neuroscience/pediatrics/trauma, ACLS, anticoagulation, oncology, home infusion, retail pharmacy management, long-term care consulting and teaching/precepting activities. Additional elective rotations include rural pharmacy management, long-term care consulting, informatics and medication therapy management services. Luther Midelfort also provides training sites for pharmacy students from the University of Wisconsin, University of Minnesota and Drake University, and offers weekly clinical topic discussions and presentations on-site for students and preceptors.

## FRINGE BENEFITS

Paid time off, medical/life insurance, dental coverage, on-site child care, free parking, exercise facility, society membership and travel allowance for educational

meeting participation and project presentation.

## TRAINING SITE FEATURES

Established in 1905, Luther Hospital has been a leader in world class healthcare. Luther Hospital is now a 304-bed, acute care, nonprofit hospital located in the heart of the Chippewa Valley.

In January 1927, Midelfart Clinic was formed by Dr. H. Christian Midelfart on the corner of Farwell and Grand streets, moving to a new building on Clairemont Avenue in 1968 and changing the name to Midelfort Clinic. Group practice with specialization in different fields continues Dr. Midelfart's vision today.

In 1992, Luther Hospital and Midelfort Clinic officially became part of the Mayo Foundation. In partnership with Mayo Clinic, Luther Midelfort offers a full range of quality medical services, including cardiac and orthopedic surgery, cancer and trauma care programs. Through a network of community-based healthcare providers in west-central Wisconsin, Luther Midelfort provides access to experts close to home.

Midelfort Pharmacy and Home Medical (MPHM) offers a full range of pharmacy practice experiences through its network of seven pharmacies. First established in 1900 in the heart of downtown Eau Claire, MPHMM now offers a full range of outpatient clinical pharmacy services including: medication therapy management, home medical equipment sales and service, respiratory care services, ambulatory care clinic and community care pharmacy practices, long term care and assisted living pharmacy services, home infusion and oncology services.

research projects. View the Resident Research website at: [http://srdweb1/clinic/dept/coe/Resident\\_Research/default.asp](http://srdweb1/clinic/dept/coe/Resident_Research/default.asp)

## FRINGE BENEFITS

Health insurance, sick leave, paid vacation, and professional travel reimbursement

## SPECIAL REQUIREMENTS FOR ACCEPTANCE

Graduate of accredited school of pharmacy, curriculum vitae, online application, official college transcripts, three letters of recommendation, eligibility for WI pharmacist licensure.

## TRAINING SITE FEATURES

Marshfield Clinic is a private, not-for-profit, multi-specialty group practice dedicated to serving patients through accessible, high quality health care, research and education. Founded in 1916, Marshfield Clinic has become one of the largest fully integrated health care systems in the United States. Marshfield Clinic serves more than 6,000 patients a day at over 40 locations throughout northern, central and western Wisconsin. The Clinic has more than 700 physicians practicing in more than 80 specialties and subspecialties, and employs over 5,500 support personnel. The Clinic is the sole sponsor of Security Health Plan of Wisconsin, Inc. The Marshfield Clinic Research Foundation is the largest private medical research facility in Wisconsin and one of the largest in the nation.

## RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 2  
Application Deadline: January 15  
Starting Date: July 1  
Estimated Stipend: \$46,000  
Interview Required: Yes

## SPECIAL FEATURES

This clinical residency provides the opportunity to develop advanced skills in a progressive community hospital setting. Clinical pharmacists provide comprehensive inpatient pharmaceutical care services throughout the hospital including the areas of general medicine, infectious diseases, nutrition support, neonatology, pediatrics, drug information, critical care, emergency medicine, psychiatry and cardiology. Pharmacy specialists also provide anticoagulation and lipid management services to ambulatory clinics associated with the hospital. Residency rotations parallel many of the specialty areas of practice within the institution. Each resident's rotation schedule is tailored to meet his or her individual needs and interests. The residents provide didactic and experiential teaching to Pharm.D. students during their clinical rotations at Meriter Hospital. In addition, the residents provide instruction to 2nd and 3rd year Doctor of Pharmacy students in the Pharmacotherapy Lab at the University of Wisconsin. Residents are encouraged to participate in the Teaching Certificate Program designed to develop and enhance their teaching skills. A research project is required of all residents completing the program.

## FRINGE BENEFITS

Health insurance, dental plan, 10 days paid time off (includes vacation and sick time), and travel allowance for educational meetings.

## SPECIAL REQUIREMENTS FOR ACCEPTANCE

Curriculum vitae, application form, copy of college transcripts, three letters of recommendation, 2 examples of student projects and eligibility for Wisconsin licensure. On-site interview is required.

## TRAINING SITE FEATURES

Meriter Hospital is a community hospital in the heart of Madison that serves as a training site for many health professionals, including physicians, nurses, pharmacists, and others. The

centralized pharmacy distributive services provide 24-hour unit dose distribution of medications and complete IV admixture services. Distributive services are complemented by decentralized clinical coverage and specialty services. Check out our website at [www.meriter.com](http://www.meriter.com). Heal, Teach, Serve – It's more than what we do, it's who we are.

## RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of positions: 1  
Application Deadline: January 15  
Starting Date: June 28  
Estimated Stipend: \$37,000-\$40,000  
Interview Required: Yes

## SPECIAL FEATURES

This PGY1 residency in primary/ambulatory care offers diverse rotational experiences, with the resident working along side physicians, nurse practitioners and pharmacists. The program has a strong teaching emphasis, with a rotation as a clinical instructor in the Pharmacotherapy Lab for University of Wisconsin School of Pharmacy students. Residents are highly encouraged to complete a Teaching Certificate Program through the School of Pharmacy. Additional teaching opportunities include serving as a preceptor to pharmacy students, providing in-services, journal club presentations, and a public health outreach project. Core rotations include pharmacotherapy clinic, internal medicine, medication use, family practice, adult medicine and pharmacotherapy lab teaching. Elective rotations include psychiatry, pulmonology/allergy, cardiology and gastroenterology. There may be opportunities to rotate in other areas, including nephrology, rheumatology, pediatrics, urology, surgery,

women's health and dermatology.

## TRAINING SITE FEATURES

The Monroe Clinic is a not-for-profit, multi-specialty health care center, servicing patients from Southern Wisconsin, Illinois, and Iowa. The Clinic offers comprehensive health care with more than 80 providers, a 24-hour emergency room, home care and hospice services, as well as seven branch clinics in southern Wisconsin and northern Illinois.

## FRINGE BENEFITS

Health insurance, dental and vision plan, disability and life insurance, retirement plan, paid time off, travel allowance for meetings.

## SPECIAL REQUIREMENTS FOR ACCEPTANCE

Graduate of an accredited school of pharmacy, eligibility for licensure in Wisconsin, letter of intent, curriculum vitae, application, college transcripts, on-site interview, three letters of recommendation.

## SPECIAL FEATURES

This residency can be individualized to meet the needs and interests of the resident. Rotations in pharmacy administration (practice management), drug information and drug policy, family practice and general medicine, critical care, nutritional support, neonatal intensive care unit, renal dialysis, infectious disease and psychiatry will be included. Optional rotations (in acute care or ambulatory care) are available in cardiology, long-term care, oncology, pediatrics, surgery and anticoagulation. Other rotations may be available based on the interest of each individual resident. A research project is required.

## FRINGE BENEFITS

Health and dental insurance, 23 days paid time off, funding and travel allowance for educational meetings.

## SPECIAL REQUIREMENTS FOR ACCEPTANCE

Curriculum vitae, college transcripts, application form, three letters of recommendation, on-site interview, eligibility for Wisconsin licensure.

## TRAINING SITE FEATURES

St. Mary's Hospital is a member of SSM Healthcare and is affiliated with Dean Health Systems. The system in Wisconsin includes three hospitals, two nursing homes, a home health agency, forty clinics, three surgery centers, a managed care organization, research foundation and eight clinic pharmacies. St. Mary's Hospital pharmacy offers 24-hour centralized unit dose distribution and I.V. admixture service. Clinical services are decentralized and include pharmacokinetics, nutritional support, drug therapy monitoring, patient education, quality improvement activities, and bedside rounds.

## SPECIAL FEATURES

The PGY1 pharmacy practice residency program at UWHC provides residents with extensive experience in an advanced clinical practice setting along with opportunities to conceptualize, integrate and transform accumulated experiences into skill and competence in providing patient care. Residents receive training in areas including internal medicine, cardiology, neurology/neurosurgery, solid organ transplantation, critical care, surgery, pediatrics, hematology/oncology, emergency department, ambulatory care, managed care, drug information and drug policy development, investigational drug services, and pharmacy practice management. Residents have the opportunity to teach pharmacy students in pharmacotherapy laboratory and clinical settings and present research, quality improvement, and drug usage evaluation projects at local, regional and national meetings. The opportunity exists for a resident's experience to be tailored in order to facilitate a second year of specialty residency training at UWHC.

## FRINGE BENEFITS

Health insurance, 5 vacation days, 9 holidays, 5 days sick leave, funding for professional meetings, and travel days to visit other health systems.

## SPECIAL REQUIREMENTS FOR

## ACCEPTANCE

Graduation from an accredited school of pharmacy, eligibility for Wisconsin licensure, on-site interview.

## TRAINING SITE FEATURES

The University of Wisconsin Hospital is a tertiary care teaching hospital with extensive research, ambulatory care, home care, managed care, and referral services augmenting its inpatient services (outpatient visits 568,000 per year). The completely decentralized and computerized pharmacy department actively participates in each of the hospital's inpatient and outpatient services as well as conducting teaching and research of its own. The department's drug distribution system is fully automated, using innovative robotic and point-of-care technology, which is supported by a fully integrated information system and network. The department manages 15 retail pharmacies, a home care company, hospital and LTC consulting service, full PBM managed care services, a medication therapy management specialty care mail service pharmacy, and a pharmacy hospice management service. Visit our web site for more information and application materials: [www.uwhealth.org/pharmacy](http://www.uwhealth.org/pharmacy).

Number of Positions: 1  
Application Deadline: January 1

# PGY1

Starting Date: July 1  
Estimated Stipend: \$38,500  
Interview Required: Yes

## SPECIAL FEATURES

This community pharmacy practice residency program provides residents with extensive experience in an advanced clinical practice setting along with opportunities to conceptualize, integrate, and transform accumulated experiences into skill and competence in providing patient care and advancing the practice of pharmacy. The program focus will be on the creation and advancement of self-sustaining pharmacist-driven pharmaceutical care initiatives. Residents receive in-depth clinical training in several different areas including anticoagulation, diabetes and endocrine, pulmonary, HIV, pharmacy management, human relations, pharmacy administration, managed care, drug information and drug policy development, medication safety, and the advancement of pharmacy practice. Residents are involved in education of UW pharmacy students in pharmacotherapy laboratory and clinical settings and present research, quality improvement, and pharmacy advanced initiative projects at local, regional, and national meetings. The opportunity exists for the community pharmacy resident's experience to be tailored in order to facilitate further advanced opportunities focusing on pharmaceutical care program development, education, and/or management at UWHC.

## FRINGE BENEFITS

14 paid vacation days/holidays, 5 sick days. As employees of UW Hospital, residents receive full health insurance benefits (including dental and vision) and full access to the University of Wisconsin's recreational, educational, and cultural facilities. Travel funds and registration for professional meetings and selected certificate programs.

## SPECIAL REQUIREMENTS FOR ACCEPTANCE

The resident must be enthusiastic, self-motivated, highly organized, and have a passion for improving

the practice of pharmacy in the community setting. The applicant must be a graduate of an accredited school of pharmacy with a Pharm.D. and eligible for Wisconsin licensure, curriculum vitae, 3 letters of recommendation, application form, an onsite interview is required.

E-mail: [makieser@pharmacy.wisc.edu](mailto:makieser@pharmacy.wisc.edu)

## RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Sites: 4  
Application Deadline: January 10  
Starting Date: July 1  
Estimated Stipend: competitive  
Interview Required: Yes

## GENERAL DESCRIPTION

The UWCPRP is a structured learning environment that offers graduate pharmacists a unique opportunity to provide direct patient care in a community setting; assist in the continued development of pharmaceutical care services; become involved with training practitioners, staff, and students in various aspects of pharmacy practice; and obtain community pharmacy management expertise. The breadth of experiences offered during the residency year is geared toward the young professional who wants to facilitate change in community practice. The UWCPRP is designed to develop community pharmacy leaders, prepared to develop their own practice or reengineer an existing practice.

## FRINGE BENEFITS

Health and liability insurance, 5 days paid approved professional leave, a professional education/

travel allowance, 10 days paid personal/vacation/sick days, seven major holidays off, advanced training in immunizations, and required attendance at three meetings (PSW Annual Meeting, APHA Annual Meeting, and Great Lakes Residency Conference).

## SPECIAL REQUIREMENTS FOR ACCEPTANCE

Candidates must complete an application form and meet the following requirements:

1. Doctor of Pharmacy degree from a school or college of pharmacy accredited by the Accreditation Council for Pharmacy Education (ACPE)
2. Prior clerkship experience providing high quality pharmaceutical care in a community pharmacy setting
3. Eligibility for licensure in Wisconsin
4. A completed application for the residency containing an application form, up-to-date curriculum vitae, official copy of pharmacy school/university transcript(s), a one-page letter of interest including utility of the program in meeting career objectives, and three letters of reference

## RESIDENCY SITES

### Group Health Cooperative Pharmacy, Madison

*Preceptor: Bonnie Orth, PharmD*

Group Health Cooperative of South Central Wisconsin is a member-sponsored health care cooperative that includes four outpatient pharmacies based in primary care clinics in and around Madison, WI. Professional staff includes 20+ pharmacists. The pharmacies are clinical rotation sites for the School of Pharmacy and have recently expanded to include a residency position. The culture is collaborative. The organization has used Electronic Medical Records for over 5 years, and employs automation technology in several pharmacies. Because the cooperative includes a nationally recognized health plan, there are opportunities for experience in population health and pharmacy benefits.

### Marshland Pharmacies, Horicon, Mayville and Beaver Dam

*Preceptors: Staci M. Williams, PharmD and Susan L. Sutter, RPh*

National Matching Program Code: #155915

Marshland Pharmacies, Inc. consists of three community pharmacies in Horicon, Mayville and Beaver Dam, as well as a specialty compounding pharmacy. The pharmacies have been designed to optimize the delivery of patient care services. The Horicon and Mayville sites are traditional community pharmacy practices, and the Mayville site also houses the compounding pharmacy. The Beaver Dam site is located in the Vita Park Medical Clinic, which is attached to the Beaver Dam Community Hospital. Our goal is to provide quality patient care through consultation, profile reviews, communication with health care providers, and documentation. Management provides opportunities for extensive experience in a variety of disease states, including asthma, diabetes, hypertension, and women's health. We provide durable medical equipment and supplies, measure for and sell compression stockings and diabetic shoes, do compliance packaging for facilities, complete pharmaceutical care billings, participate in providing MTM services through WPQC and Medicare Part D, and immunize—including travel vaccines. We also serve as a community health information resource through radio or newspaper announcements and community education sessions. At our sites, residents will have the opportunity to interact with eight pharmacists with varying practice experience, including a former community pharmacy resident. Prior to becoming one of the founding practice sites for the UWCPRP, Marshland Pharmacies trained five residents since 2000.

# PGY1

## **Morton Pharmacy, Neenah**

*Preceptors: Kurt Holm, RPh and Jeff Cushman, RPh*

Morton Pharmacy is a family owned independent pharmacy chain with 12 locations in Appleton, Greenville, Neenah-Menasha, Oshkosh, and Winneconne. Eight community and three clinic locations, as well as a long-term care pharmacy, all combine to offer a variety of practice opportunities. Patient care services offered include blood pressure, blood glucose, cholesterol, and osteoporosis screenings, clozapine management, immunizations, and compounding. The professional staff includes 27 pharmacists, a nurse, and 44 technicians. Corporate management consists of a pharmacist, a CPA, an MBA, and an IT expert.

## **Medicine Shoppe Pharmacies, Two Rivers**

*Preceptors: Brian C. Jensen, RPh, FACA and Marvin R. Moore, PharmD*

The Two Rivers Medicine Shoppe Pharmacies consist of two integrated practice sites: a community-based pharmacy, and an office-based pharmacy specializing in medication therapy management, compounding and collaborative practice with an independent physician. The constant in this practice has been a commitment to patient focused pharmacy care recognized on a state and national level for innovation. Pioneering work with such quality-based program initiatives as the Wisconsin Pharmacy Quality Collaborative, HealthMapRx and Foundation Care has served to develop and sustain this care model. Recently re-engineered, the facility design/workflow has served as prototypes for the pharmacy profession. Three pharmacists and 12 pharmacy technicians provide staffing in these integrated sites. The Two Rivers Medicine Shoppe Pharmacies have been involved in resident training since 1999.

## **Wheaton Franciscan Healthcare – St. Joseph**

5000 W. Chambers St.  
Milwaukee, WI 53210

### **PROGRAM DIRECTOR/ CONTACT PERSON**

Nitish Bangalore, PharmD, BCPS  
Tele: (414) 447-2034  
Fax: (414) 874-4343  
E-mail: nitish.bangalore@wfhc.org

### **RESIDENCY PROGRAM**

Duration/Type: 12 mo/residency  
Number of positions: 2  
Application Deadline: January 15  
Starting date: July 1  
Estimated stipend: \$40,000  
Interview required: Yes

### **SPECIAL FEATURES**

The resident will spend most of their time at St. Joseph Hospital, the largest hospital in the Wheaton Franciscan Healthcare System.

The site provides training for critical care, internal medicine, infectious diseases, neonatology and cardiology. The resident will participate in site specific and system Pharmacy and Therapeutics Committees and assist with evaluating/improving patterns of drug utilization. Opportunities are available for experience in rehabilitation, home health, and other hospitals within the system.

### **FRINGE BENEFITS**

Health, dental, vision and life insurance; 20 days paid time off; some educational and travel support. Free parking.

### **SPECIAL REQUIREMENTS FOR ACCEPTANCE**

PharmD preferred, curriculum vitae, letter of interest, three letters of recommendation, college transcript, eligible for Wisconsin licensure.

### **TRAINING SITE FEATURES**

The program is individualized to meet the needs of each resident. Pharmacy leadership is provided by Cardinal health, and the program provides site and system management experience. Clinical teaching experience can also be acquired with University of Wisconsin-Madison clerkship students. Located in Milwaukee,

Wisconsin, the area offers many opportunities to enjoy the outdoors and cultural events.

## **William S. Middleton VA Medical Center**

2500 Overlook Terrace  
Madison, WI 53705

### **PROGRAM DIRECTOR/ CONTACT PERSON**

Arthur A. Schuna, MS, FASHP  
Tele: (608) 256-1901 ext 11031

### **RESIDENCY PROGRAM**

Duration/Type: 12 mo/residency  
Number of Positions: 5  
Application Deadline: January 15  
Starting Date: July 1  
Estimated Stipend: \$38,000  
Interview Required: Yes

### **SPECIAL FEATURES**

This residency is designed to train pharmacists in advanced level medication therapy management in ambulatory care using a collaborative practice model. Residents learn to serve as providers of care for patients with a wide variety of disease states. The clinical practice includes both general internal medicine and specialty clinics. Required rotations include Primary Care Medication Management, Anticoagulation, Epilepsy, Diabetes, Allergy, Hypertension, Rheumatology, Osteoporosis, Mental Health, Pain and Smoking Cessation Clinics. Elective rotations include Hepatitis C, Psychiatry, Infectious Disease, Wingra Family Medicine and Dermatology clinics. Residents teach in the Pharmacotherapy lab at the School of Pharmacy and may assist in precepting students on clinical rotation in ambulatory clinics. A Teaching Certificate Program is available for Residents to develop and enhance teaching skills. Residents are granted prescribing authority and also have privileges to order lab and other diagnostic tests needed to monitor the patients for whom they provide care.

### **FRINGE BENEFITS**

Health insurance, 13 vacation days, 13 sick days and 10

Holidays/year plus administrative leave to attend meetings.

### **SPECIAL REQUIREMENTS**

Graduate of PharmD program.

### **TRAINING SITE FEATURES**

The VA Health Care system is nationally recognized as a leader in totally integrated computerized patient clinical records. The medical center is a tertiary care teaching hospital affiliated with the University of Wisconsin Schools of Pharmacy and Medicine. The hospital is a general medical and surgery facility with all major medical sub-specialties of medicine. The proximity of hospital to the UW Clinical Science Center allows the Resident to attend conferences at both hospitals.

Fax: (414) 649-5428  
E-mail: tom.woller@aurora.org

#### **RESIDENCY PROGRAM**

Duration/Type: 12 mo (PGY2) or 24 mo if combined with Pharmacy Practice (PGY1) Residency  
Number of Positions: 2  
Application Deadline: January 12  
Starting Date: July 1 (flexible)  
Estimated Stipend: \$65,000  
Interview Required: Yes

#### **SPECIAL FEATURES**

Aurora Health Care offers a 12-month administration specialty for residents with prior residency experience. For applicants without prior residency experience, the specialty is combined with Aurora's PGY1 (Pharmacy Practice) residency and completed in 24 months. The PGY2 resident is a member of the administrative team for the health system's department of pharmacy. The resident gains experience in all aspects of pharmacy practice management in a complex organization. Core rotations include drug use policy, purchasing/inventory control, automation/technology, inpatient supervision, and financial, clinical, and ambulatory care management, and experiences are customized to meet the resident's goals and interests.

#### **FRINGE BENEFITS**

Eligible for full-time employee benefits, including medical/dental insurance, 23 days of paid time off and travel support for educational meetings. Tuition support for MBA program also available.

#### **SPECIAL REQUIREMENTS FOR ACCEPTANCE**

Graduate of an accredited school of pharmacy and eligibility for

Wisconsin licensure. Prior PGY1 residency experience if pursuing the 12-month program. Applicants should submit letter of interest, curriculum vitae, three letters of recommendation, and transcripts.

#### **TRAINING SITE FEATURES**

Aurora Health Care is the largest not-for-profit integrated health care system in Wisconsin. It features 13 hospitals, numerous ambulatory, diagnostic and treatment centers, home health care and social service agencies, over 100 physician clinics, and 130 retail pharmacies. Residents are exposed to aspects of management in many different practice settings within Aurora.

### **Children's Hospital of Wisconsin – Pediatric Pharmacy**

9000 W. Wisconsin Ave.  
Milwaukee, WI 53201

#### **PROGRAM DIRECTOR/ CONTACT PERSON**

Tom Nelson, PharmD, RPh  
Tele: (414) 266-2838  
Fax: (414) 266-2820  
E-mail: tnelson@chw.org

#### **RESIDENCY PROGRAM**

Type/Duration: 12 mo/residency  
Number of positions: 1  
Application Deadline: January 31  
Starting Date: June 30  
Estimated Stipend: \$60,000  
Interview required: Yes

#### **SPECIAL FEATURES**

The PGY-2 Pediatric Pharmacy Residency Program at Children's Hospital of Wisconsin will provide the resident opportunity to develop clinical skills in a pediatric acute care hospital while developing competence in direct pediatric patient care, practice management and leadership skills. The resident will develop the competencies necessary to provide pharmaceutical care to pediatric patients in critical care units as well as general medical and surgical units. The PGY-2 pediatric pharmacy residency program begins with a required rotation in general pediatric medical/surgical areas with trauma team training and

responsibilities. Intensive care rotations follow and are based on the resident's interests. The pediatric critical care rotations include: neonatal intensive care unit, pediatric hematology, oncology and bone marrow transplant unit and three 24 bed pediatric intensive care units. In addition, the resident will have the opportunity to work with attending pediatricians including Medical College of Wisconsin professors, pediatric medical residents, pharmacy students and medical students, as well as develop clinical programs and provide a limited amount of decentralized pharmacy staffing.

#### **FRINGE BENEFITS**

The resident has health insurance, paid vacation, holidays, sick leave, and educational meeting allowance.

#### **SPECIAL REQUIREMENTS FOR ACCEPTANCE**

Completion of a PGY1 pharmacy residency, application form, curriculum vitae, eligibility for Wisconsin pharmacy licensure, on-site interview, letters of recommendation and pharmacy school transcripts are required. Children's Hospital of Wisconsin participates in ASHP national matching service.

#### **TRAINING SITE FEATURES**

Children's Hospital of Wisconsin is a 236 bed acute care pediatric teaching hospital in Milwaukee, WI. Children's Hospital of Wisconsin is located on the Milwaukee Regional Medical Center Campus, which includes the Medical College of Wisconsin and Froedtert Memorial Lutheran Hospital. Children's is a Level 1 trauma center and a tertiary care pediatric hospital. The pharmacy department provides centralized distributive services 24 hours a day and decentralized pharmacists in general and specialty areas. The Children's Hospital of Wisconsin West Tower will be completed in early 2009 and patient beds will begin to open in March/April 2009, thus increasing the total beds to 294.

#### **SPECIAL FEATURES**

The Clement J. Zablocki VA Medical Center offers a one year post graduate year two (PGY2) residency in Infectious Diseases Pharmacy Practice for pharmacists desiring advanced clinical training in infectious diseases pharmacotherapy. The program is currently seeking accreditation by the American Society of Health Systems Pharmacists (ASHP). The Milwaukee VA PGY2 ID pharmacy practice residency builds on experiences gained through a PGY1 program and is designed to offer both didactic and clinical experiences leading to the development of a practitioner with expert knowledge and skills in the area of infectious diseases pharmacotherapy.

#### **FRINGE BENEFITS**

Health insurance, 10 vacation days, 10 holidays, 10 sick/family care days, tuition support.

#### **SPECIAL REQUIREMENTS OF ACCEPTANCE**

Graduate of an accredited school of pharmacy, may be licensed or eligible for licensure in any state. U.S. citizenship required. Applicants must have completed an accredited PGY1 pharmacy practice residency and be

## PGY2

participating in the ASHP Resident Matching Program (RMP).

Letter of intent, curriculum vitae, application form, transcripts, and three letters of recommendations are required for application. See website for details about letter of recommendation - <http://www.milwaukee.va.gov/edu/residencies/pharmacy/>.

### TRAINING SITE FEATURES

The Clement J. Zablocki VA Medical Center delivers primary, secondary, and tertiary medical care in 140 acute operating beds and provides 586,000 visits annually through an extensive outpatient program. The nursing home care unit of 110 beds offers geriatric programming and the 300+ domiciliary beds are the locus of programs in Substance Abuse Rehabilitation, Psychiatric Rehabilitation and Post Traumatic Stress Disorder care. Milwaukee also has community based outpatient clinics in Appleton, Cleveland and Union Grove, Wisconsin. These programs serve a veteran population of over 250,000 in southeastern and east central Wisconsin. Special programs include interventional radiology, cardiac surgery, comprehensive cancer care including radiation therapy, telemedicine, a Spinal Cord Injury Unit, and, in long term care, a Geriatric Evaluation and Management Program and a palliative care program. The Medical Center is a teaching institution affiliated with the Medical College of Wisconsin and many Schools of Pharmacy (UW, Midwestern, St. Louis, Drake, UMKC, and Creighton). The pharmacy department provides centralized distributive services 24 hours a day. Decentralized clinical pharmacy services include internal medicine, oncology, infectious disease, nutrition support, pharmacokinetics, pharmacoconomics, and anticoagulation monitoring.

### Froedtert Hospital – Critical Care

9200 W. Wisconsin Ave.  
Milwaukee, WI 53226

Fax: (414) 805-9283  
E-mail: [wpeppard@fmlh.edu](mailto:wpeppard@fmlh.edu)

### RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 1  
Application Deadline: January 15  
Starting Date: June 30  
Estimated Stipend: \$62,400  
Interview Required: Yes

### SPECIAL FEATURES

This program is designed to provide advanced clinical training and leadership opportunities from a dedicated critical care preceptor team. Built upon many years of experience training PGY1 residents, this newly-developed specialty program offers evidence-based clinical experience in multiple intensive care settings (surgical/trauma, cardiac, bone-marrow-transplant), infectious disease, emergency medicine and peri-operative pharmacy services. Research projects and teaching activities are tailored to meet the needs/interests of the resident. Residents will have the opportunity to precept residents and PharmD students on clinical rotations. BLS and ACLS training will be provided.

### FRINGE BENEFITS

Two and a half weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowance.

### SPECIAL REQUIREMENTS FOR ACCEPTANCE

Completion of a PGY1 residency. Employment application, program application, curriculum vitae, pharmacy transcripts, two or three letters of recommendation (electronic templates will be provided), and examples of three projects. All application materials (except pharmacy transcripts) must be submitted via email to [pharmacyresidencyprogram@fmlh.edu](mailto:pharmacyresidencyprogram@fmlh.edu).

More information is available on the web at [www.froedtert.com/pharmacy\\_residency](http://www.froedtert.com/pharmacy_residency).

### TRAINING SITE FEATURES

Froedtert Hospital is a large academic medical center and Level 1 trauma center located on the Milwaukee Regional Medical Center Campus, which encompasses the Medical College of Wisconsin and Children's Hospital of Wisconsin. Decentralized pharmacists provide comprehensive clinical services and patient education throughout the hospital. The Department of Pharmacy maintains an excellent rapport with nursing and medical staff and is actively involved in their educational programs. This program is designed to provide advanced clinical training and leadership opportunities from a dedicated critical care preceptor team.

## RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 1  
Application Deadline: January 15  
Starting Date: July 1  
Estimated Stipend: \$62,400  
Interview Required: Yes

## SPECIAL FEATURES

Comprehensive practice management training is provided in a variety of areas with a dedicated and experienced team of preceptors. This specialty program is built upon many years of experience training PGY1 pharmacy residents. Required rotations include health-system pharmacy administration, clinical practice management, medication safety, operations and technology management, ambulatory service management, and pharmacy informatics. Elective opportunities may include health-system administration, contracting/purchasing, financial management, investigational drug services, and drug policy. Projects and activities are tailored to meet the needs and interests of the resident.

## FRINGE BENEFITS

Two and a half weeks of paid time off; six paid holidays; health, vision, dental, disability and life insurance; travel and meeting allowance.

## SPECIAL REQUIREMENTS FOR ACCEPTANCE

Completion of a PGY1 residency. Employment application, program application, curriculum vitae, pharmacy transcripts, two or three letters of recommendation (electronic templates will be provided), and examples of three projects. All application materials (except pharmacy transcripts) must be submitted via email to [pharmacyresidencyprogram@fmlh.edu](mailto:pharmacyresidencyprogram@fmlh.edu).

## TRAINING SITE FEATURES

Froedert Hospital is a large academic medical center and Level 1 trauma center. We are located on the Milwaukee Regional Medical Center Campus, which encompasses the Medical College of Wisconsin and Children's Hospital of Wisconsin.

Decentralized pharmacists provide comprehensive clinical services and patient education throughout the hospital. The Department of Pharmacy maintains an excellent rapport with nursing and medical staff and is actively involved in their educational programs. The pharmacy management team at Froedert Hospital is well-connected and involved in local, state and national organizations including academic hospital peer and contracting groups; offering the resident exposure to activities beyond the institution level.

### RESIDENCY PROGRAM

Duration Type: 12 mo/residency  
Number of Positions: 1  
Application Deadline: February 1  
Starting Date: July 1  
Stipend: \$50,000  
Interview Required: Yes

### SPECIAL FEATURES

Saint Joseph's Hospital is physically adjacent to Marshfield Clinic, one of the nation's largest private, multi-specialty group practices. Saint Joseph's Hospital and Marshfield Clinic combine their expertise to deliver key services, including alcohol and drug recovery services, cancer care, heart care, mental health, neonatal care, neurosciences, palliative care, pediatrics, trauma care, and women's health. Marshfield Clinic hosts weekly Grand Rounds featuring renowned speakers from across the country.

The pharmacy department collaborates with all members of the health care team to improve the medication use process. Our clinical pharmacy practice is enhanced by the extensive array of dispensing and information technology. We value: service excellence, enhancement of patient safety, providing learning opportunities, innovations in patient care, and empowerment of individuals providing care. We constantly strive to be a leader in providing pharmaceutical care and an outstanding center for educating pharmacy professionals.

### FRINGE BENEFITS

Generous paid time off, medical, dental, and vision coverage, savings plan, flexible spending accounts, life insurance, short/long term disability, and loan assistance programs. Also included are travel allowance for educational meeting participation and project presentation.

### SPECIAL REQUIREMENTS FOR ACCEPTANCE

Each applicant must have a Pharm.D./B.S. from an accredited college of pharmacy in the U.S., completed an ASHP accredited PGY-1 residency, and be eligible for licensure in Wisconsin. A letter of intent, curriculum vitae, 3 letters of recommendation, and an official college transcript are required with the online application. An onsite interview will be required.

### TRAINING SITE FEATURES

Ministry Health Care is a non-profit health care organization comprised of 15 hospitals and 52 medical clinics throughout north-central Wisconsin and eastern Minnesota. The majority of the resident's time will be spent working with the pharmacy leadership team at Saint Joseph's Hospital, a 504 bed tertiary care and trauma center. The resident will participate in system-level projects at several of the hospitals, as well as outpatient treatment centers and clinics. In addition, an orientation and staffing component will occur at one of the nearby hospitals early in the residency and continue throughout the year.

### RESIDENCY PROGRAM

Duration/Type: 24 mo w/degree  
Number of Positions: 4  
Application Deadline: January 15  
Starting Date: July 1  
Estimated Stipend: \$35,000 (year 1)/\$36,000 (year 2)  
Interview Required: Yes

### SPECIAL FEATURES

The two year M.S. Residency in Health-System Pharmacy Administration and Leadership at University of Wisconsin Hospital and Clinics is designed to provide the resident with a solid background in academics and the administration of exemplary pharmacy services across and integrated health system (IHS). The primary objective of the program is to develop pharmacy administrators who are trained and prepared to immediately assume manager and assistant director level administrative leadership positions within large integrated health care delivery systems (e.g., managers or assistant directors of pharmacy operations, pharmacy patient care services, medication use policy, medication safety, informatics, etc.) and eventually a Director of Pharmacy position. The residency integrates clinical practice with extensive administrative course work and administrative rotations to form a unique foundation upon which to build a career in an integrated health-system pharmacy management. Flexibility in the aforementioned programs combined with research, teaching,

## PGY2

and academic electives allows the resident to tailor the program to his or her career goals and objectives. The residency program offers extensive experience in integrated pharmacy service networks.

### FRINGE BENEFITS

Tuition paid by hospital, health insurance, 16 days vacation, 14 travel days to visit other institutions, 10 days sick leave, 6 paid holidays per year, and funding for professional meetings.

### SPECIAL REQUIREMENTS FOR ACCEPTANCE

Acceptance by the University of Wisconsin Graduate School, GRE, 3.00/4.00 GPA, eligibility for Wisconsin licensure. Previous residency and/or practice experience preferred.

### TRAINING SITE FEATURES

The University of Wisconsin Hospital is a tertiary care teaching hospital with extensive research, ambulatory care, home care, managed care, and referral services augmenting its inpatient services (outpatient visits 600,000 per year). The completely decentralized and computerized pharmacy department actively participates in each of the hospital's inpatient and outpatient services as well as conducting teaching and research of its own. The department's drug distribution system is fully automated, using innovative robotic and point-of-care technology, which is supported by a fully integrated information system and network. Manages inpatient services, 15 retail pharmacies, a home care company, hospital and LTC consulting service, full PBM managed care services, a medication therapy management specialty care service and a Hospice hospital. website: [www.uwhealth.org](http://www.uwhealth.org)

### University of Wisconsin Hospital and Clinics – Critical Care Pharmacy

F6/133 Clinical Science Center  
600 Highland Ave.  
Madison, WI 53792

### RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 1  
Application Deadline: January 15  
Starting Date: July 1  
Estimated Stipend \$38,000  
Interview Required: Yes

### SPECIAL FEATURES

The residency at this tertiary care teaching hospital is designed to train pharmacotherapy specialists in the area of critical care. The resident will gain clinical skills by being part of a multidisciplinary team caring for critically ill patients in a combined medical/surgical (Level 1 Trauma Center) intensive care unit. The residency has other required rotations in nutrition, neurosciences ICU, pediatric ICU, and cardiac medicine ICU. Elective rotations include infectious disease, nephrology, burn ICU, cardiac surgery ICU, operating room and emergency room. Residents will have the opportunity to precept residents and PharmD students on clinical rotations and teach in the pharmacotherapy lab at the School of Pharmacy. Research skills will be developed by completing a project suitable for publication. BLS and ACLS training will be provided.

### FRINGE BENEFITS

Health insurance, five vacation days, nine holidays, 6 days sick leave, funding for professional meetings, travel days to visit other health systems.

### SPECIAL REQUIREMENTS FOR ACCEPTANCE

On-site interview, PharmD, prior pharmacy practice residency, and eligibility for Wisconsin licensure.

### TRAINING SITE FEATURES

The University of Wisconsin Hospital is a tertiary care teaching hospital with extensive research, clinic, ambulatory care, home care, HMO and referral services augmenting its inpatient services. The decentralized and computerized pharmacy department actively

conducts teaching and research. The department is extensively automated with robotic drug distribution technology to support inpatient and outpatient dispensing functions and with a totally integrated information system and network.

### RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 1  
Application Deadline: January 15  
Starting Date: Flexible  
Estimated Stipend \$38,000  
Interview Required: Yes

### SPECIAL FEATURES

The PGY2 specialty residency in critical care and nutrition support at UWHC provides residents with extensive experience in an advanced clinical practice setting along with opportunities to conceptualize, integrate, and transform accumulated experiences into skill and competence in providing patient care. The primary focus of the residency is to become a competent clinician in areas of transplant and surgical and critical care pharmacology. Residents teach pharmacy students in pharmacotherapy laboratory and clinical settings and present research, quality improvement, and drug usage evaluation projects at local, regional, and national meetings.

### FRINGE BENEFITS

Health insurance, 5 vacation days, 9 holidays, 5 days sick leave, funding for professional meetings, and travel days to visit other health systems.

### SPECIAL REQUIREMENTS FOR ACCEPTANCE

Graduation from an accredited school of pharmacy, completion of a PGY-1 residency, eligibility for Wisconsin licensure, on-site interview.

### TRAINING SITE FEATURES

The University of Wisconsin Hospital is a tertiary care teaching hospital with extensive research, ambulatory care, home care, managed care, and referral services augmenting its inpatient services (outpatient visits 568,000 per year). The completely decentralized and computerized pharmacy department actively participates in each of the hospital's inpatient and outpatient services as well as conducting teaching and research of its own. The department's drug distribution system is fully automated, using innovative robotic and point-of-care technology, which is supported by a fully integrated information system and network. The department manages 15 retail pharmacies, a home care company, hospital and LTC consulting service, full PBM managed care services, a medication therapy management specialty care mail service pharmacy, and a pharmacy hospice management service. Visit our website for more information and application materials: [www.uwhealth.org/pharmacy](http://www.uwhealth.org/pharmacy).

### RESIDENCY PROGRAM

Duration/Type: 12 mo/residency  
Number of Positions: 2  
Application Deadline: January 31  
Starting Date: July 1  
Estimated Stipend: \$40,000  
Interview Required: Yes

### **SPECIAL FEATURES**

The PGY2 specialty residency is designed to develop leaders in Ambulatory Care clinical practice. This includes the ability to perceive the need for and delivery of a wide range of programs that would improve the delivery of care to ambulatory patients. It may be done as a second year of training for those completing the PGY1 year at our institution but Residents completing PGY1 at other institutions would also be considered. This residency is designed to train pharmacists in advanced level medication therapy management in ambulatory care using a collaborative practice model. Residents learn to serve as primary providers of care for patients with a wide variety of disease states. The clinical practice includes both general internal medicine and specialty clinics. Residents who complete the PGY1 year at our institution may elect rotations to concentrate on during the year. Those from other institutions would require a broader training including required rotations in Primary Care Medication Management, Anticoagulation, Epilepsy, Diabetes, Pain, Mental Health, Allergy, Hypertension, Rheumatology, Osteoporosis and Smoking Cessation Clinics. Residents teach in the Pharmacotherapy lab at the School of Pharmacy and may assist in precepting students on clinical rotation in ambulatory clinics. In addition to further development of clinical practice and teaching skills, PGY2 Residents would gain administrative skills to plan, develop and assess the impact of ambulatory clinical services. Residents would also receive formal training in leadership development and personal planning in order to prepare them for the leadership challenges of the future. Residents are granted prescribing authority and also have privileges to order lab and other diagnostic tests needed to monitor the patients for whom they provide care.

### **FRINGE BENEFITS**

Health insurance, 13 vacation days, 13 sick days, administrative leave to attend meetings.

### **SPECIAL REQUIREMENTS**

Completion or currently enrolled in a PGY1 residency, graduate of a PharmD program.

### **TRAINING SITE**

The VA Health Care system is nationally recognized as a leader in totally integrated computerized patient clinical records. The medical center is a tertiary care teaching hospital affiliated with the University of Wisconsin Schools of Pharmacy and Medicine. The hospital is a general medical and surgery facility with all major medical sub-specialties of medicine. The proximity of hospital to the UW Clinical Science Center allows the Resident to attend conferences at both hospitals.

Duration/Type: 12 mo/residency

Number of Positions: 2  
Application Deadline: January 15  
Starting Date: July 1  
Estimated Stipend: \$40,000  
Interview Required: Yes

### **SPECIAL FEATURES**

The PGY2 Residency: Pharmacy Administration & Leadership provides highly motivated and exceptionally qualified pharmacists with a myriad of experiences in pharmacy management and leadership practice. These experiences are coordinated under the direct and immediate supervision of the Pharmacy Chief who is the designated Residency Director. The primary mission of the residency is to develop leadership and management skills that will support a professional and productive practice in pharmacy management. This mission is realized by providing experiences and responsibilities that realistically develop and augment the resident's communication skills, problem solving abilities, professional knowledge base, judgment, and insight in a "real life" pluralistic management environment. By providing an atmosphere for the resident to grow and develop individual talents (while receiving guidance and structure as required), the resident will become more cognizant of their strengths and weaknesses and will be able to continually apply themselves to further enhance their management and leadership practice skills. Graduates of the program shall be able to develop, implement, monitor and maintain operational and clinical pharmacy services, and shall be able to successfully apply the principles of strategic planning, personnel development, needs-based communication, fiscal management, regulatory compliance, program development, evidence-based outcome assessment, and pharmacoconomics.

The residency is a 12-month longitudinally organized and directed postgraduate training program which is flexible in that it will adapt to the needs of the individual resident, yet provide the basic foundation for quality management and leadership

practice experiences. It will include exposure to national, VISN, and local activities that are directed to support team management, regulatory compliance, performance measure monitoring and compliance, and resource management. Emphasis will be placed on practical and applied management and leadership topics (such as personnel management, communication, resource management, project development and management, automation, quality management, and medication use processes), as well as additional experience and exposure within the VISN 12 and VHA PBM environments. Further, to provide broad training and experience in the fundamentals of pharmacy management and leadership, the program offers the resident experience in areas of possible specialization (e.g., pharmacoconomics) in order that he/she may better formulate personal long-range goals.

**FRINGE BENEFITS**

Health insurance, 13 vacation days, 13 sick days, administrative leave to attend meetings.

**SPECIAL REQUIREMENTS**

Completion or currently enrolled in a PGY1 residency, graduate of a PharmD program.
